

16th Conference of the International Society of Travel Medicine

CISTM16

Washington DC, United States of America

5-9 June 2019

CISTM16 Scientific Session Program Proposal Submission Form

ISTM members interested in submitting a proposal for topics and speakers for the CISTM16 Scientific Program must complete the attached forms and email to ISTM at CISTMSPC@ISTM.org no later than 15 March 2018.

Please use one form for each proposal you submit. This form can be used for Plenary, Symposium, Debate, Panel Discussion or Workshop Proposals.

If you have any questions, please contact the ISTM Secretariat at CISTMSPC@ISTM.org.

Session Descriptions:

Plenary – The daily plenaries during the meeting are meant to highlight areas at the forefront of travel medicine. In general these are internationally prominent invited speakers with expertise allied to travel medicine who delegates would like to hear, but who would not otherwise attend a travel medicine meeting. Each speaker is typically allotted 30 minutes; there is no discussion period during plenary sessions. There are no concurrent sessions running during plenaries.

Symposium - Each symposia during the meeting are meant to highlight areas at the forefront of daily travel medicine practice. The topics are more focused than the plenaries and in many cases will appeal most to subsets of delegates with special interests. Each speaker is typically allotted 25 minutes for their presentation with 5 minutes for questions. Symposia are held concurrently with other sessions.

Debate – The debate during the meeting is meant to highlight a controversial area at the forefront of travel medicine. This format will feature four highly experienced ISTM members who will debate specific issues under the broad topic. There will be opening and closing statements by each of the debaters, and time will be made available for questions from the audience to the debaters. This session will be held concurrently with other sessions.

Panel Discussion – This session type brings together two or three travel medicine health care professionals who lead a discussion and dialogue of a special interest topic.

Workshop – Each workshop session is designed to promote dialogue between two experts on a topic in the field of travel medicine and individuals in practice who have experiences to share and questions to ask. While designed to be intimate and interactive, experience indicates that workshop audiences will vary. Practical information that will give participants insight into the most current strategies for prevention, self-treatment, and diagnosis is emphasized. Workshop chairs will have developed a set of clinical scenarios or case histories designed to stimulate discussion/learning. Some workshops are designated as ABC, indicating introductory topics, and some as destination which focus on a particular travel destination. All workshop sessions are concurrent with other sessions.

Knowledge Bytes

The intent of this session is to present a variety of topics under one unifying focus. Through the presentations of four to six speakers, each “byte” is allotted 10 minutes to present a single aspect of, the newest technology in, or best practice guidelines on the main topic. The design of this session allows twice as many topics to be explored, engaging a wide variety of conference attendees.
