

Travel Medicine

M.D.Ph.D. Stela Halichidis
Clinical Hospital of Infectious Diseases
Constanta, Romania

- 
- Constanta is an important city on the board of the Black Sea, especially because of the University, harbour, seacoast
 - Travels can have different aims: professional, social, entertaining, humanitarian

ROMÂNIA - LITORAL

- 
- Travel medicine is a branch of the public health with a remarkable development in the last decades;
 - the principal target is the diminution of the risks during travels

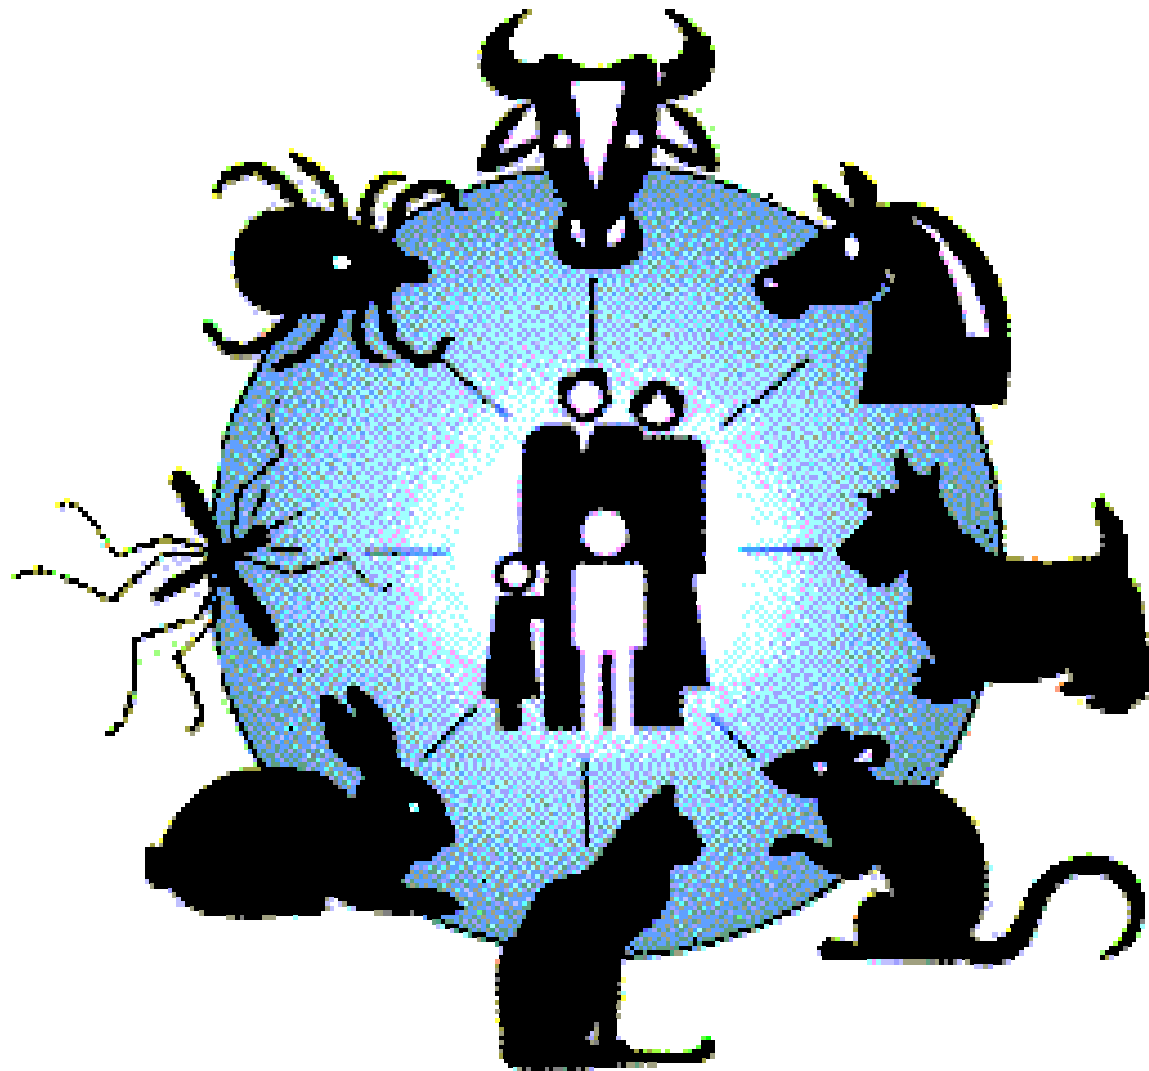

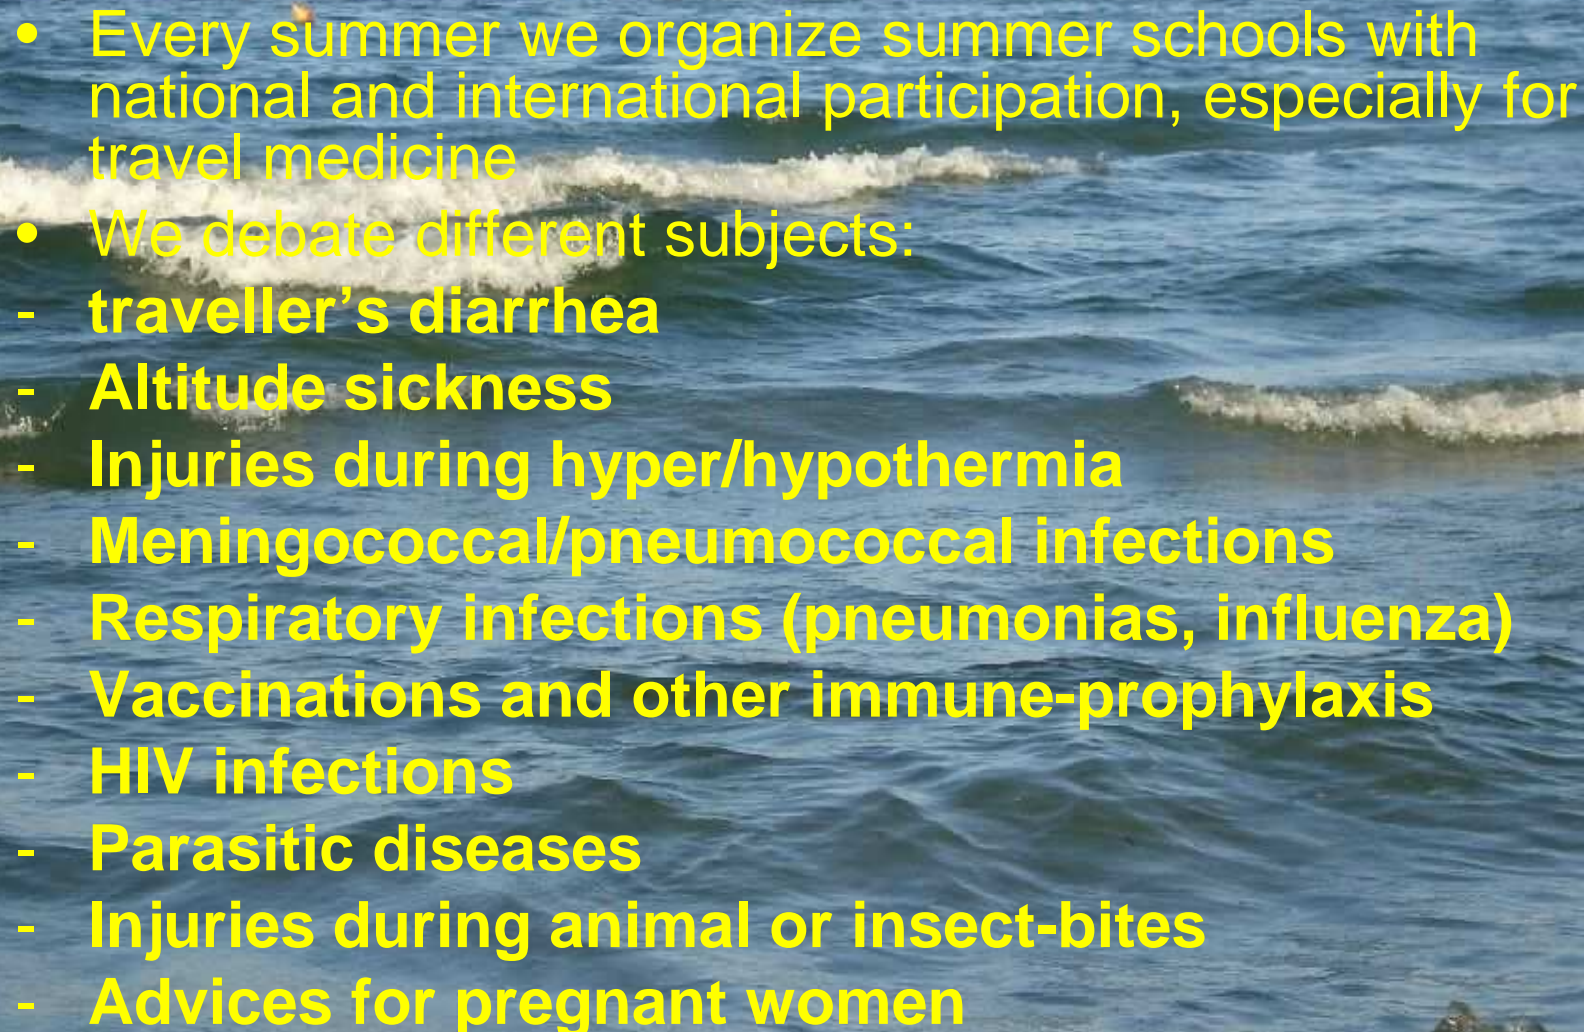

More than 30 years in Clinical Hospital of Infectious Diseases-Constanta we hospitalized a lot of patients with travel-related diseases:

- **Food poisoning**
- **Cholera**
- **Disenteria**
- **Acute enterocolitis (traveller's diarrhea)**
- **Hepatitis**
- **Meningoencephalitis**
- **Malaria**
- **Leishmaniasis**
- **Typhoid fever**
- **Amebiasis**
- **Measles**
- **Pneumonias**
- **Influenza**
- **Psittacosis**
- **Mediterranean fever**
- **Lyme disease**
- **Leptospirosis**
- **Even HIV infection, in sailors, with predominant sexual route of transmission**
- **Different parasitic diseases**
- **Animal-bites (rabies, tetanus- prophylaxis/treatment)**

- zoonosis

- 
- Every summer we organize summer schools with national and international participation, especially for travel medicine
 - We debate different subjects:
 - **traveller's diarrhea**
 - **Altitude sickness**
 - **Injuries during hyper/hypothermia**
 - **Meningococcal/pneumococcal infections**
 - **Respiratory infections (pneumonias, influenza)**
 - **Vaccinations and other immune-prophylaxis**
 - **HIV infections**
 - **Parasitic diseases**
 - **Injuries during animal or insect-bites**
 - **Advices for pregnant women**
