

International Conference on Migration Health
1-3 October 2018
Program Schedule

All sessions will be held in the Leptis Magna Sala, on Floor -2 of the Ergife Palace Hotel.

Monday, 01 October 2018

Time	Program	Leptis Magna
08.30-09.30	Welcome and Introduction	
KY1 09.30-10.15	Keynote Lecture <i>Migration: Past, Present, and Future</i> Mohammed Abdiker, Switzerland	Sala II
PL1 10.15-11.00	Plenary Promoting and Protecting the Health of Migrants Francesco Castelli, Italy <ul style="list-style-type: none"> • Review the Italian response to the migrant surge over the past few years. • Describe the Italian model of provision of health care to new migrants. 	Sala II
11.00-11.30	Morning Break	Sala Foyer
SY1 11.30-13.00	Symposium Caring for Migrants as the Result of Regular Migration: Experiences of Receiving Countries in North America SY1.01 Pre-Arrival Health Assessments – the International Organization for Migration (IOM) Paul Douglas, Switzerland <ul style="list-style-type: none"> • Describe the comprehensive health assessment services provided by IOM and how they are used by destination countries. • Discuss the medical screening, preventative or curative treatment, counselling and health education provided during the comprehensive health assessments. • Review the process for migrants identified to have a condition that is considered inadmissible by destination countries. SY1.02 Post-Arrival Health Assessments and Settlement Issues Annalee Coakley, Canada <ul style="list-style-type: none"> • Review the initial steps involved with settling new migrants. 	Sala I

	<ul style="list-style-type: none"> • Discuss the health assessment for migrants in the early or later settlement phase. • Describe challenges to settlement of migrants and solutions to these challenges. <p>SY1.03 Best Practices for the Health Promotion of Migrants Tseganesh Selameab, United States of America</p> <ul style="list-style-type: none"> • Describe the Minnesotan model of developing a successful refugee clinic based on Best Practices. • Discuss how to incorporate a culturally competent approach in clinic activities and patient management. 	
PD1 11.30-13.00	<p>Panel Discussion Regional Migration: Challenges and Opportunities</p> <p>Moderator: Davide Mosca, Italy Panellists: Seif Al-Abri, Oman Job Muriuki, Switzerland Padam Simkhada, United Kingdom Apostolos Veizis, Greece</p> <p><i>This panel discussion will provide insights into the health challenges and selected response mechanisms for intraregional migration from the North African, Middle East, and South Asian perspectives.</i></p>	Sala II
OR1 11.30-13.00	Oral Session 1 – Women and Children	Sala IV
11.30-12.00 WORKSHOP	OR1.01 A Transcultural and Equitable Approach to Migrant Women’s Health Kristin Semancik , Ireland Anais Le Corvec , Ireland	
12.00-12.15	OR1.02 Migrant Women’s Proficiency in the Language of the Host-Country and Late Initiation of Prenatal Care – the Portuguese baMBINO Study Sousan Al Hamwi , Portugal	
12.15-12.30	OR1.03 Increased Risk of Eating Disorders of Georgian Immigrant Women Nino Javakhishvili , Georgia	
12.30-12.45	OR1.04 Burden of Diseases in Refugee Children Living in Moria Camp, Greece Mafalda Bessa de Melo , Portugal	
12.45-13.00	OR1.05 Procedures for the Health Protection of Foreign Unaccompanied Minors Arriving in Italy Alessandra Diodati , Italy	
13.00-14.30	Lunch Break – lunchboxes provided	Sala Foyer

<p>WS1 14.30-16.00</p>	<p>Workshop Successfully Engaging Migrants in Healthcare</p> <p>Janine Benson-Martin, Germany Dominik Zenner, United Kingdom</p> <p>The workshop, using real life cases, will discuss the issues of:</p> <ul style="list-style-type: none"> • Describe different approaches and programs of engaging migrants in health care. • Dr. Zenner will describe the Public Health England approach to engaging migrants in latent TB screening/treatment in the United Kingdom. • Dr. Benson-Martin will describe a low-level primary health care intervention that has been implemented in two health districts in Germany. How migrants have been engaged in care through this psychoeducation group programme based on a stepped-Care Model (NICE) and led by trained refugees will be discussed. 	<p>Sala I</p>
<p>SY2 14.30-16.00</p>	<p>Symposium Chronic and Non-Communicable Diseases in Migrants</p> <p>SY2.01 <i>Cardiovascular Disease and Hypertension</i> Maria L. Muiesan, Italy</p> <ul style="list-style-type: none"> • Describe cardiovascular disease among migrants. • Review the health disparities and associated health burden of these diseases among migrants. • Describe differences in screening and management strategies for these diseases among migrants as compared to host populations. <p>SY2.02 <i>The Epidemiology of Diabetes and Chronic Kidney Disease (CKD)</i> Charles Agyemang, The Netherlands</p> <ul style="list-style-type: none"> • Describe metabolic disease among migrants. • Review the health disparities and associated health burden of these diseases among migrants. • Describe differences in screening and management strategies for these diseases among migrants as compared to host populations. <p>SY2.03 <i>Screening and Management of Cancers amongst Migrants</i> Tom Schulz, Australia</p> <ul style="list-style-type: none"> • Describe the epidemiology of cancers, risk factors, and determinants including environmental and epigenetics factors in various ethnic groups. 	<p>Sala II</p>

	<ul style="list-style-type: none"> Review the health disparities and associated health burden of these diseases among migrants in different host countries and their countries of origin. Describe screening and management strategies for these diseases among migrants. 	
WS2 14.30-16.00	<p>Workshop The Art and Science of Screening Migrants Rogelio Lopez-Velez, Spain Teymur Noori, Sweden William Stauffer, United States of America</p> <p>The workshop, using real life cases, will discuss the issues of:</p> <ul style="list-style-type: none"> Understanding the basic tenants of screening. Work through and understand the decision-making process for: <ul style="list-style-type: none"> a. different settings. b. different populations. c. and, whether it is better to not screen, screen or presumptively treat for various disorders in these settings and populations. Reviewing specific difficult screening examples such as hepatitis C and malaria. 	Sala IV
16.00-16.30	Afternoon Break	Sala Foyer
SY3 16.30-18.00	<p>Symposium Setting Paediatric Migrants Up for Long-Term Success</p> <p>SY3.01 <i>Clinical and Infectious Disease Challenges in Migrant Children</i> Ulrich von Both, Germany</p> <ul style="list-style-type: none"> Screening approaches for migrants and their children. Human Immunodeficiency Virus (HIV) / Tuberculosis (TB) – changes in epidemiology; clinical and logistical challenges; Latent Tuberculosis Infection (LTBI). Paediatric emergency care of migrant children Emerging infectious diseases. <p>SY3.02 <i>Understanding Trauma and the Social Environment in Responding to Child Traumatic Stress Across the Migration Process</i> Alisa Miller, United States of America</p> <ul style="list-style-type: none"> Review the spectrum of potentially traumatizing situations for children: before, during, and after migration. 	Sala I

	<ul style="list-style-type: none"> • Describe a theoretical model of child traumatic stress. • Outline the key elements of a clinical program for the treatment of child traumatic stress in paediatric migrants. <p>SY3.03 <i>Promoting Resilience in Migrant Children, with the Support of their Families and Communities</i> Elizabeth Dawson-Hahn, United States of America</p> <ul style="list-style-type: none"> • Review the personal and environmental factors that promote resilience across and within cultures, with examples. • Describe the features of successful school integration programs and the role of health care provider in promoting educational success. • Outline the community resources that are needed to support children and their families through the resettlement process. 	
<p>SY4 16.30-18.00</p>	<p>Symposium Tuberculosis (TB), Human Immunodeficiency Virus (HIV), and Viral Hepatitis in Migrants</p> <p>SY4.01 <i>Screening and Treatment of Infectious Diseases in Migrants</i> Sally Hargreaves, United Kingdom</p> <ul style="list-style-type: none"> • Explore the burden of infection (TB, latent TB, MDR-TB, AMR) in migrants to Europe and implications for infection control. • To explore the effectiveness of screening approaches adopted across Europe. • To understand and characterize the unique barriers to screening and treatment that migrants may face, and facilitators to improve uptake and outcomes. <p>SY4.02 <i>Human Immunodeficiency Virus (HIV) in Migrants</i> Julia del Amo, Spain</p> <ul style="list-style-type: none"> • Describe the geographical, behavioural and social determinants of HIV infection at origin and destination countries. • Address the most appropriate screening strategies to facilitate linkage and access to care. <p>SY4.03 <i>Viral Hepatitis in Migrants</i> Jordan Feld, Canada</p> <ul style="list-style-type: none"> • Describe the epidemiology of hepatitis B and hepatitis C viral infections. • Review the management of these conditions including programs that facilitate linkage to care and treatment. • Describe the screening strategies and their impact on viral hepatitis elimination. 	<p>Sala II</p>

OR2 16.30-18.00	Oral Session 2 – South South Migration	Sala IV
16.30-17.00 WORKSHOP	OR2.01 <i>Protocol-Based Screening of Migrants in Oman and the Gulf Cooperation Council (GCC) countries</i> Seif Al-Abri , Oman Eskild Petersen , Denmark	
17.00-17.15	OR2.02 <i>Problems Faced by Nepalese Female Migrant Workers in Gulf Countries: A Quantitative Survey</i> Padam Simkhada , United Kingdom	
17.15-17.30	OR2.03 <i>Forced Migration in Nigeria: An Overview and the Public Health Impact</i> Evangeline Oparaocha , Nigeria	
17.30-17.45	OR2.04 <i>Quality, Equity and Dignity; Are the Marginalized Communities Receiving Best Health Services in Malawi; Case Study; Refugees at Dzaleka and Luwani Refugee Camps in Dowa and Neno Districts, Respectively</i> Andrew Likaka , Malawi Regina Chimanya , Malawi	
OF1 18.30-19.30	Open Forum Through the Eyes of Migrants <i>Chairs:</i> Francesco Castelli , Italy Christina Greenaway , Canada <i>Speakers:</i> Ibrahim Busari Adebawale , Nigeria Jamil Awan , Italy Abdoulaye Bah , Guinea Yen Bui , Canada This session aims to present first-person accounts of the migration process, both from newly arrived migrants, and from migrants who have made long-term homes in their adopted communities.	

Tuesday, 02 October 2018

08.00-08.50	ISTM Migrant and Refugee Health Interest Group Presentation Protection and Promotion of Health and Safety of Migrant Workers <i>Moderators:</i> Anita Heywood , Australia Yuka Ujita , Switzerland <i>Speakers:</i> Masatoki Adachi , Japan Paul Douglas , Switzerland Anita Heywood , Australia	Sala I
--------------------	---	---------------

	<p>Frank Pega, Switzerland Yuka Ujita, Switzerland</p> <p>According to the 2013 International Labour Organization (ILO) global estimates, migrant workers accounted for 150 million workers worldwide. While a minority of migrant workers hold high-skill jobs, many have jobs that are “dirty, dangerous, and demanding” (“3-D jobs”) and consequently face higher risks of work-related injuries and diseases.</p> <p>The objectives of this session are:</p> <ul style="list-style-type: none"> • Understanding high safety and health risks of migrant workers and existing conditions. • Sharing good practices to protect migrant workers. • Discussing measures for improving health and safety of migrant workers. 	
COD1 08.00-08.50	<p>Case-of-the-Day Challenging Cases in Migration Medicine Eskild Petersen, Denmark</p>	Sala II
08.00-08.50	<p><i>ISTM's GeoSentinel – a Global Sentinel Network</i> Migration-Specific Aspects of GeoSentinel David Hamer, United States of America</p>	Sala IV
PL2 09.00-10.30	<p>Plenary <i>Migration Today: Challenges and Opportunities</i></p> <p>PL2.01 <i>The History of the Refugee Process and the Role of Different International Organizations</i> Patricia F. Walker, United States of America</p> <ul style="list-style-type: none"> • Describe the flows of refugees and other migrants (regular and irregular) to different global regions in the 20th and 21st centuries. • Describe the historical processes that generated the post-Second World War refugee health system of today. • Describe the origins of and the roles and responsibilities of: United Nations High Commissioner for Refugees (UNHCR), International Organization for Migration (IOM), World Health Organization (WHO), International Committee for the Red Cross (ICRC), as well as certain national and continental public health agencies (e.g. European Centre for Disease Prevention and Control [ECDC], United States Center for Disease Control and Prevention [CDC]). 	Sala II

	<p>PL2.02 <i>The Humanitarian Gap – Old System, New Ways Forward: Does the Humanitarian Assistance Model Need to be Changed?</i></p> <p>Paul Spiegel, United States of America</p> <ul style="list-style-type: none"> • Discussion of the challenges of managing acute and chronic humanitarian crises with the current system. • Review new approaches such as the need for integration of services within national systems. • Use the Syrian refugee crisis and its effects in Europe and other chronically displaced populations as an example of how to address these complex issues. <p>PL2.03 <i>The Benefits of Migration</i></p> <p>Jeff Sachs, United States of America</p> <ul style="list-style-type: none"> • Describe the important and positive contributions that migrants make to host countries. • Outline the economic benefits and the human capital that migrants bring to a host country. • Use individual stories/examples to highlight the benefits of migration. 	
10.30-11.00	Morning Break	Sala Foyer
WS3 11.00-12.30	<p>Workshop Educating the Next Generation of Health Care Providers for a Mobile World</p> <p>Nathan Bertelsen, United States of America Ana Requena, Spain</p> <p>The workshop, using real life cases, will:</p> <ul style="list-style-type: none"> • Describe the distinct and defined body of knowledge in immigrant, refugee and migrant health. • Teach participants about opportunities for their own continuing medical education in immigrant, refugee and migrant health. • Delve into innovative education models for participants to generate ideas for training at their own institutions. 	Sala I
SY5 11.00-12.30	<p>Symposium Caring for Migrants as the Result of Irregular Surges: Experiences of Receiving Countries in the European Refugee Crisis</p> <p><i>Chair:</i> Gianfranco Costanzo, Italy</p> <p>SY5.01 <i>Acute Health Problems, Public Health Measures and Administration Procedures During the Pre-Arrival / Transit Phase</i></p> <p>Apostolos Veizis, Greece</p>	Sala II

	<ul style="list-style-type: none"> Review the range of emergency health problems of migrants/refugees that may arise during the pre-arrival phase. Describe the public health preparedness and intervention, first aid provision and administration procedures required to respond to the needs of migrants in the pre-arrival phase. <p>SY5.02 <i>Health Needs and Public Health Intervention During the Early Phase of Settlement at Points-of-Care: The Experience of Migrants and Refugees in Greece</i> Androula Pavli, Greece</p> <ul style="list-style-type: none"> Review the health issues of migrants/ refugees during the early arrival at hotspots and during early settlement at reception/transition/points-of-care (PoC). Describe the health care services and public health measures required at PoCs such including screening, vaccination and disease surveillance. Review the main challenges from the health care provider’s and migrant’s perspective. <p>SY5.03 <i>Host Health Systems Preparedness and Responsiveness During the Later Phase of Migration</i> Susanne Pruskil, Germany</p> <ul style="list-style-type: none"> Review the current situation of access to healthcare of newly arrived migrants/refugees in European Union (EU) countries. Describe the challenges of health care systems in receiving countries in adapting to the diverse health care needs of migrants including linguistic and cultural barriers. Review the responsibility of member states to provide health care for migrants and the importance for a strategic plan of responsiveness at a European level. 	
OR3 11.00-12.30	Oral Session 3 – Potpourri	Sala IV
11.00-11.15	OR3.01 <i>Evaluating Migrant Health Policies at International Level: A New Approach to Building a Synthetic Index</i> Aldo Rosano , Italy	
11.15-11.30	OR3.02 <i>Stabilizing Refugees with Complex Medical Conditions Prior to Departure: Experience with Refugees in Jordan, 2016-17</i> Rasha Shoumar , Jordan Aleksander Galev , Jordan	
11.30-11.45	OR3.03 <i>Syndromic Surveillance of the Asylum Seeker Population of Montreal</i> Lavanya Narasiah , Canada	

11.45-12.00	OR3.04 <i>Mental Health Screening and Support to Newly Arrived Refugees in the United States: A Pilot Study</i> Nasreen Quadri , United States of America	
12.30-14.00	Lunch Break – lunchboxes provided	Sala Foyer
WS4 14.00-15.30	Workshop Digital Solutions to Enhance the Continuity of Care for Refugees and Migrants Kanav Kahol , United States of America Kudzai Kanhutu , Australia Tom Schulz , Australia <ul style="list-style-type: none"> • Understand basic digital health terminology; eHealth, telehealth, mHealth, EMR, internet of things. • Using real life case studies to explore some of the design challenges associated with implementing digital health solutions. 	Sala I
DB1 14.00-15.30	Debate Screening for Latent Tuberculosis (LTBI) among Migrants Moderator: Ymkje Stienstra , The Netherlands Panellists: Delia Goletti , Italy Drew Posey , United States of America Marieke van der Werf , Sweden Dominik Zenner , United Kingdom Each panellist will present: <ul style="list-style-type: none"> • The rationale for their country’s or region’s approach(es) to screening for latent tuberculosis (LTBI) in migrants. • Address the choice of diagnostic test/algorithm, latent TB therapy, and linkage to care processes in place to ensure screening uptake and treatment completion. 	Sala II
WS5 14.00-15.30	Workshop Building Transcultural Competences and Working with Interpreters and Cultural Brokers Gianfranco Costanzo , Italy Tseganesh Selameab , United States of America <ul style="list-style-type: none"> • Describe how to work with interpreters and cultural brokers in the health care setting, using examples from the clinic. 	Sala IV

	<ul style="list-style-type: none"> Review the key elements of training required for health practitioners caring for migrants (physicians, nurses, health promoters, etc.) to ensure effective communication with migrant patients. Review acting as a bridge between health practitioners and migrants to ensure effective communication between the health team and the migrant patient. 	
WS6 15.30-17.00	<p>Workshop Vaccination Issues Along the Migration Pathway: Accomplishments and Challenges Moderator: Elizabeth Barnett, United States of America</p> <p>Anita Heywood, Australia Michelle Weinberg, United States of America</p> <ul style="list-style-type: none"> Pre-migration immunization issues and strategies will be discussed using United States-bound Refugees as an example. Specific topics include: <ul style="list-style-type: none"> Addressing pre-migration breakdown of systems (Syria, Somalia, Myanmar). Discussing limited vaccination intra migration (up to years), leading to outbreaks, record-keeping challenges. Highlighting pre-migration vaccination programs for refugees, their challenges and success stories. Post-migration immunization issues and strategies will be discussed using newly arrived immigrants to Australia as an example. Specific topics include: <ul style="list-style-type: none"> Barriers to immunization (cultural, financial, policy, documentation, etc.). The impact of those barriers on immigrants in Australia (outbreaks, failure to enter school, stigma). Innovative post-migration programs and activities to remove these barriers. 	Sala I
SY6 15.30-17.00	<p>Symposium How to address Migrant and Refugee Women’s Health</p> <p>SY6.01 Pregnancy Issues in Migrant Women Crista Johnson-Agbakwu, United States of America</p> <ul style="list-style-type: none"> Review the specific health issues during pregnancy for migrant women including barriers in access to pre-natal care. Describe the health outcomes of migrant women and their babies. 	Sala II

	<ul style="list-style-type: none"> Review the approach to promoting health among migrant women during pregnancy. <p>SY6.02 Female Sexual Mutilation Claire Tantet, France</p> <ul style="list-style-type: none"> Review the epidemiology, physical, and mental consequences of female genital mutilation (FGM) globally and within migrant populations. Describe the clinical and multi-disciplinary approach to this problem and the legal implications of carrying out FGM in Europe, North America and Australia. Review interventions for prevention including using the travel consultation to identify children being taken abroad for the purpose of FGM and how to counsel parents and families. <p>SY6.03 Violence Against Migrant Women Including Intimate Partner Violence Ghayda Hassan, Canada</p> <ul style="list-style-type: none"> Review the physical, mental, and sexual violence migrant women face as they are fleeing difficult situations and during their transit. Describe the issue of intimate partner violence among migrant women and how to manage this problem. Describe the approach to managing violence and extreme trauma in women after they have arrived in a host country. 	
OR4 15.30-17.00	Oral Session 4 – Strategies to Optimize Migrant Health	Sala IV
15.30-15.45	OR4.01 MEDICAL BOOKLET: A Useful Tool for Migrants Along their Migration Route Jacopo Testa, Italy	
15.45-16.00	OR4.02 CRIBMI: Improving screening strategies for migrants in Primary Care (PC) Ana Requena, Spain	
16.00-16.15	OR4.03 Mapping Migrant Resources to Make Access to Care Smarter Pania Karnaki, Greece	
16.15-16.30	OR4.04 Description of a Public Health Project Aimed to Immigrant Population: Salud Entre Culturas (SEC) Project Ignacio Peña Ruiz, Spain	
17.00-17.30	Afternoon Break	Sala Foyer

<p>SY7 17.30-19.00</p>	<p>Symposium Mental Health Among Migrants in Different Settings</p> <p>SY7.01 <i>Mental Health Problems in Immigrants and Refugees: A General Approach in Primary Care</i> Eric Jarvis, Canada</p> <ul style="list-style-type: none"> • Review the burden of mental health disorders in different migrant groups and their determinants. • Identify risk factors and strategies in the approach to mental health assessment and to prevention. • Treatment approaches of common mental health problems for immigrants in primary care. <p>SY7.02 <i>The Mental Health of Asylum Seekers and the Consequences of Immigration Detention</i> Cornelius Katona, United Kingdom</p> <ul style="list-style-type: none"> • Summarize the epidemiology of mental health problems in asylum seekers. • Review the mental health consequences of immigration detention. • Explore constructive approaches to providing effective therapy for asylum seekers despite their ongoing situational uncertainty. <p>SY7.03 <i>Undocumented Migrants and Mental Health</i> Vincenzo Spigonardo, Italy</p> <ul style="list-style-type: none"> • Review the mental health issues in undocumented migrants. • Review the structural, legal, and social barriers to health care encountered and the risk of abuse and exploitation as they struggle to provide for themselves and their families. • Review the delivery of health care provided in the absence of access to health care and the reliance on institutions and individual doctors for essential care. Novel care models will be presented based on experiences from different countries. 	<p>Sala I</p>
<p>SY8 17.30-19.00</p>	<p>Symposium Public Health Surveillance for Refugees and Migrants <i>Chair: Nina Marano, United States of America</i></p> <p>SY8.01 <i>Surveillance Strategies in African Refugees – From Early Arrival to Departure from Country of Asylum</i> Maurice Ope, Kenya</p> <ul style="list-style-type: none"> • Highlight the need for cross-border collaboration in disease control in Africa. • Understand surveillance strategies during acute and stable refugee crises. 	<p>Sala II</p>

	<ul style="list-style-type: none"> • Discuss surveillance needs in the immediate pre-departure period to the resettlement country. <p>SY8.02 <i>Implementing Syndromic Surveillance in Migrant Reception Centres and Other Settings During Emergency Situations</i> Silvia Declich, Italy</p> <ul style="list-style-type: none"> • Review the European Centre for Disease Prevention and Control's (ECDC's) experience with conducting surveillance in migrant reception centres. • How is syndromic surveillance applied in these settings? • Discuss their findings. <p>SY8.03 <i>Health Surveillance for Newly Resettled Refugees in the United States</i> Emily Jentes, United States of America</p> <ul style="list-style-type: none"> • Discuss surveillance for newly arrived refugees undergoing resettlement in the United States. • Show how United States surveillance systems link overseas exams and pre-departure interventions to domestic health screening information. • Discuss state-level surveillance systems and plans to harmonize across these systems. 	
OR5 17.30-19.00	Oral Session 5 – Infectious Diseases Among Migrants	Sala IV
17.30-17.45	OR5.01 <i>Infectious Disease Testing of United Kingdom-Bound Refugees: A Population-Based Cross-Sectional Study</i> Alison Crawshaw, United Kingdom	
17.45-18.00	OR5.02 <i>Global Surveillance of Infectious Diseases in Migrants by the GeoSentinel Network</i> Elizabeth Barnett, United States of America	
18.00-18.15	OR5.03 <i>Tuberculosis and Foreign-Born Populations in the United States: A Mixed Methods Analysis of Media Reporting and Political Identification</i> Angel Desai, United States of America	
18.15-18.30	OR5.04 <i>The Epidemiology of Varicella in Immigrants and Non-Immigrants in Canada and the Impact of the Childhood Varicella Vaccination Program</i> Christina Greenaway, Canada	
18.30-18.45	OR5.05 <i>In a Retrospective Cohort of Asylum Seekers, Carriage Rate of MDRO Remains Increased Even After a Long-Term Stay in the Netherlands</i> Christina Louka, The Netherlands	
18.45-19.00	OR5.06 <i>National Immunization Policies and Practices Targeting Asylum Seekers, Refugees and Irregular Migrants in European Union / European Economic Area Countries</i> Giulia Marchetti, Italy	

Wednesday, 03 October 2018

<p>08.00-08.50</p>	<p>Building Research Networks <i>Chair:</i> Paul Douglas, Switzerland <i>Speakers:</i> Ines Campos-Matos, United Kingdom Chuck Hui, Canada Dominik Zenner, United Kingdom</p> <p>The objectives of this session are:</p> <ul style="list-style-type: none"> • The 2nd Global Consultation on migration health and recent Global Compacts on migrants and refugees have emphasised the critical need to advance effective migration and health policies and practices. However, migration and health discourses and national/regional/global agendas are often framed through lenses of border protection, disease control, and dominated by ‘othering’ discourses. • This workshop aims investigate the current status of migration health research and to explore the role of a research network on (re)framing of the migration and health research agenda. 	<p>Sala I</p>
<p>COD2 08.00-08.50</p>	<p>Case-of-the-Day Challenging Cases in Migration Medicine Poh Lian Lim, Singapore</p>	<p>Sala II</p>
<p>KY2 09.00-09.45</p>	<p>Keynote <i>Migration: Where Do We Go from Here?</i> Raniero Guerra, Switzerland</p> <ul style="list-style-type: none"> • Review the recent global response to migration movement. • Describe the global compacts for regular and refugee migration. • Discuss the impact that these compacts will have on the health of migrants and responsibilities of host countries to ensure the health promotion of the migrant population. 	<p>Sala II</p>
<p>09.45-11.00</p>	<p>Morning Break Poster Sessions</p>	
<p>SY9 11.00-12.30</p>	<p>Symposium</p>	<p>Sala I</p>

	<p>Parasites: Malaria, Chagas, Schistosomiasis and Strongyloides in Migrants</p> <p>SY09.01 Malaria Eli Schwartz, Israel</p> <ul style="list-style-type: none"> • Describe the burden and epidemiology of malaria among migrants. • Review the clinical course, diagnosis and therapeutic options. • Discuss approaches to screening including pre-emptive therapy among migrants. <p>SY09.02 Chagas Disease Rogelio López-Vélez, Spain</p> <ul style="list-style-type: none"> • Describe the burden and epidemiology of Chagas disease among migrants. • Review the clinical course, diagnosis and therapeutic options. • Discuss approaches to screening for Chagas disease among migrants and its associated barriers. <p>SY09.03 Schistosomiasis and Strongyloides Zeno Bisoffi, Italy</p> <ul style="list-style-type: none"> • Describe the burden and epidemiology of strongyloides and schistosomiasis among migrants. • Review the clinical course, diagnosis and therapeutic options. • Discuss approaches to screening for strongyloides and schistosomiasis disease among migrants and the associated barriers. 	
<p>PD2 11.00-12.30</p>	<p>Panel Discussion Communicating about Migrant Health: Shaping the Public and Policy Discourse</p> <p>Moderator: Kamran Abbasi, United Kingdom Panellists: Paul Spiegel, United States of America Jacqueline Weekers, Switzerland Robert Vitillo, Italy</p> <p>In this session, panellists will:</p> <ul style="list-style-type: none"> • Discuss how communication about migration can change or influence the conversation and discourse about this contentious and politically divisive issue. • Provide the perspective from policy and public health decision makers, academia, humanitarians and spiritual leaders. 	<p>Sala II</p>

OR6 11.00-12.30	Oral Session 6 – Barriers in Healthcare Access for Migrants and Perceptions of Patients and Practitioners	Sala IV
11.00-11.30 WORKSHOP	OR6.01 <i>Walking in Your Shoes: How is it to be a Patient in Moria Refugee Camp Clinic?</i> Marta Tilli , Greece Mafalda Bessa de Melo , Portugal	
11.30-11.45	OR6.02 <i>Healthcare Charging for Migrant Groups in the United Kingdom: Awareness and Experience of Clinicians within Sexual and Reproductive Health and Human Immunodeficiency Virus (HIV)</i> Bethan Jones , United Kingdom	
11.45-12.00	OR6.03 <i>Asylum Seekers’ Opinions on Vaccination and Screening Policies after Their Arrival in Greece</i> Sofia Ravensbergen , The Netherlands	
12.00-12.15	OR6.04 <i>Implementing a Programme of Combined Community-Based Testing for Multiple Infections: Migrants’ Attitudes and Awareness</i> Fatimah Wobi , United Kingdom	
12.15-12.30	OR6.05 <i>The Gamification of Public Health Education: Experiential Learning for Migration Health</i> Nuria Serre Delcor , Spain	
12.30-13.30	Conference Wrap-Up Key Takeaways and Future Actions Kamran Abbasi , United Kingdom Nina Marano , United States of America Patricia F. Walker , United States of America
